PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Attachment to Advisory

Response to Arguments

Applicant's arguments filed **August 17, 2009** have been fully considered but they are not persuasive. Applicant has argued:

Request to Withdraw Final Rejection

The Office Action is made final, despite raising new rejections based on the contention that the previously filed Amendment necessitated new grounds of rejection. However, the previously presented claims refer to a "set" such that the new grounds were not necessitated by the previously filed Amendment.

To which "***previously presented claims***" is Applicant referring?

As for the drawings, aside from potentially being new matter additions to both the drawings and the specification, it is unclear how Applicant intends the addition of arrows to a non-elected specie to aid in understanding or enablement of the elected specie. Likewise, it is unclear how Applicant expects arguments referencing the teachings of a non-elected specie to be found persuasive with respect to claims drawn to the elected specie.

Drawings

It is unclear why flow directional arrows have not been added to Figures 3 and 4.

Any inquiry concerning this communication should be directed to /Robert James Popovics/ at telephone number (571) 272-1164.
